

The Leimbach Method

Powerbuilding, Nutrition, Recovery, and Performance

Review Draft PDF

Generated 2026-07-09

This is a review draft, not a final publication PDF. All source chapters remain in review status.

Safety notice: Heat illness symptoms, chest pain, fainting, severe shortness of breath, neurological symptoms, or rapidly worsening symptoms require urgent medical attention.

Source Order

Built from MANUSCRIPT.md and Publishing/02-table-of-contents.md. Links are shown as readable repository paths for proof review.

Order	Section	Repository Source
1	Front matter / safety	Publishing/03-front-matter.md
2	Table of contents	Publishing/02-table-of-contents.md
3	Implementation Guide	Implementation/01-start-here.md through 06-user-checklists.md
4	Volume I - Nutrition	Nutrition/01-athlete-profile.md through 12-adjustment-protocol.md
5	Volume II - Training	Training/01-program-overview.md through 12-progression-rules.md
6	Volume III - Recovery	Recovery/01-recovery-overview.md through 07-recovery-checklists.md
7	Volume IV - Tracking	Tracking/01-tracking-overview.md through 06-dashboard-template.md
8	Exercise Library	Exercise-Library/01-library-overview.md through 07-substitution-rules.md
9	Back matter and review checklists	Publishing/04-back-matter.md through 06-final-review-checklist.md

Nutrition Table Proof

Representative table-heavy page from Volume I. Source chapter status: review.

Day Type	Calories	Protein	Carbs	Fat
Training day	4,200 kcal	260 g	510 g	95 g
Cardio day	3,850 kcal	260 g	420 g	95 g
Rest day	3,500 kcal	260 g	320 g	100 g

Target	Amount
Calories	4,200 kcal
Protein	260 g
Carbohydrate	510 g
Fat	95 g

Training Table Proof

Representative table-heavy page from Volume II. Source chapter status: review.

Week	Goal	Main Lift Top Work	Volume Direction	Conditioning
Week 1	Base/entry week	RPE 6-7	Establish clean work	Rebuild/standard intervals
Week 2	Small increase	RPE 6.5-7.5	Add a small load or rep increase	Standard intervals if legs recover
Week 3	Productive build	RPE 7-8	Strong but repeatable volume	Keep recoverable
Week 4	Strongest productive week	Up to RPE 8	Best quality work, no max testing	Adjust around heat/work stress
Week 5	Consolidate or slight taper	RPE 7-7.5	Hold or trim volume	Lower if readiness dips
Week 6	Lower-stress consolidation	RPE 5-6	Reduce load, volume, and intensity	Easy work only

Recovery Safety Proof

Representative recovery and heat-stress page from Volume III. Source chapter status: review.

Heat illness symptoms, chest pain, fainting, severe shortness of breath, neurological symptoms, confusion, stopped sweating with overheating, or rapidly worsening symptoms require urgent medical attention.

Heat Stress Signal	Recovery Meaning
Heavy sweat	Higher fluid/electrolyte need
Sudden bodyweight drop	Rehydrate and review heat exposure
Headache/cramps after heat	Add food/electrolytes and lower training stress
Poor sleep after heat	Start next training day yellow
Confusion/fainting/rapid worsening	Urgent medical attention

Tracking Dashboard Proof

Representative dashboard/checklist page from Volume IV. Source chapter status: review.

Day	BW	Sleep	Shift/Heat	Training/Cardio	Meals/Hydration	Soreness/Pain	Readiness
Mon				Squat			
Tue				Intervals			
Wed				Bench			
Thu				Intervals			
Fri				Deadlift			
Sat				Recovery			
Sun				Recovery/light			

Metric	Entry	Decision Signal
7-day average bodyweight		Nutrition trend
Waist		Body composition guardrail
Best training performance		Progression signal
Heat exposure count		Hydration/recovery adjustment
Red flags		Urgent medical attention if present

Final Review Checklist Proof

Representative checklist page from Publishing/06-final-review-checklist.md. Status: review.

Review Area	Proofing Checks
Content review	Confirm each chapter has a clear purpose and fits the manuscript order.
Coaching/programming review	Confirm progression, substitutions, deloads, and readiness rules preserve training intent.
Nutrition review	Confirm macro, hydration, supplement, grocery, and adjustment chapters remain conservative.
Recovery and heat-stress review	Confirm heat illness symptoms are treated as urgent symptoms.
Medical red-flag language review	Confirm no chapter implies diagnosis, treatment, or guaranteed prevention.
PDF proof review	Confirm broken links, page breaks, table rendering, heading hierarchy, and approved placeholders.
